

**23RD OF JUNE**

**H.10.30**

**IN FRONT OF THE  
PREFETTURA (FORLÌ)  
PIAZZA DEGLI ORDELAFFI 1**

**REGULARIZATION**

**RIGHT TO ACCOMMODATION**

**DECENT HOME & FREEDOM OF MOVEMENT FOR ALL**

At the same time that the current economic crisis drives millions of individuals and families to poverty and deprivation by unfair and anti-social policies, we are nowadays increasingly witnessing an escalation of outbreaks of racism and discrimination, aimed in particular at the reception of migrants and refugees, and the drawing up of bilateral agreements aiming to enforce rejection, expulsion and deportation rather than to pursue social justice.

Today, we must move forward. This is why we have launched a period of national and international mobilization in many countries from 10 to 30 June 2018 to demand:

- the regularization of migrants and refugees and the freedom of movement within European Union;
- the right to housing / decent accommodation (Italian, migrants and refugees);
- the repeal of bilateral agreements on deportation;
- the right to residence for the renewal of the permit to stay;
- the repeal of art. 5 of the Renzi-Lupi housing plan;
- breaking the link that makes the residence permit conditional on the labor contract / national insurance number;
